

Event Mat Slotted

From recycled plastic we make surfaces for humans and animals sustainably better.

www.kunststoffmatten.de

Field of application:

Temporary flooring for outdoor tournaments, trade fairs and events.

Description:

The Event Mat Slotted is mainly suitable for outdoor tournaments, trade fairs and events in halls where a clean and resilient floor needs to be created quickly and easily that is permeable to water. As the mats are tongue and groove, they can be laid quickly and result in an almost closed surface that is easy to clean. The mats can be driven on if the ground is suitably firm. Temporary riding surfaces are easy to apply and remove. The floor always remains optimally usable even in rainy weather.

Properties:

Insensitive to chemicals and UV radiation, water-permeable, absorbs force, easy to lay and clean, trafficable.

FG Kunststoffmatten GmbH
Hannoversche Straße 23
31547 Rehburg-Loccum
